INDEX

PROCEEDINGS OF THE AMERICAN CONCRETE INSTITUTE

VOLUME 39—1943

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, Vol. 14, Sept. 1942, to June 1943 and Supplement, November 1943.

This is an Index of:

Original contributions to the JOURNAL OF THE AMERICAN CONCRETE INSTITUTE—papers, reports, discussions by subject, title and author.

For the convenience of the reader who is referring to JOURNAL issues rather than to Bound Volumes (in which discussion is assembled following the paper discussed) there is a reference to JOURNAL issue in which discussion appeared. This reference to discussion is by supplementary page numbers. If the last page of a paper is 28, the first page of the discussion, published later, is 28 - 1.

In general, important subjects are classified and indexed under approximately 30 main headings each one appearing in its proper alphabetical order in bold face capital letters—as for instance, ARCHITECTURAL DESIGN. "Housing," and other subjects classified under this head, are indented.

Key words to important subjects, appear, in alphabetical order in addition to the general classification—as for instance "Admixtures" and "Aggregates" each referring to MATERIALS AND TESTS under which all allied references appear, indented. Authors' names and original titles of papers appear in bold face type in proper alphabetical sequence with the subjects, with references to their contributions.

Specific data on Beams are so indexed by reference to ENGINEERING DESIGN or TESTS OF MEMBERS AND COMPLETED STRUCTURES thus avoiding an oversight by the searcher of important allied data.

The complete title of each paper is indexed. This title is repeated in full following the name of the author in its proper alphabetical order. Numerous cross references to parts of the subject matter covered, do not always indicate the full scope. This may be found by looking up the item referred to under the name of the author.

The readiest use may be made of this index by gaining some familiarity with the main classifications as follows:

ARCHITECTURAL DESIGN
BIBLIOGRAPHIES
BREAKWATERS—DOCKS AND SEA WALLS
BRIDGES
BUILDING CODES
BUILDINGS
BUILDING UNITS
CENTRAL MIXING
COMMITTEES
CONSTRUCTION—DETAILS, METHODS AND COSTS
CURING
DAMS
DURABILITY
ENGINEERING DESIGN
FAILURES
FIRES, FIRE TESTS AND FIREPROOFING
LAWS AND PROPERTIES
MASONRY UNITS
MATERIALS AND TESTS
MIXTURES
PAVEMENT
PERMEABILITY
PIPE
PRECAST UNITS
RAILWAY USES
RESEARCH
RESERVOIRS AND TANKS
SEWERS
SPECIFICATIONS
STRUCTURAL MEMBERS
SURFACES
TESTS AND FIELD CONTROL
TESTS OF MEMBERS AND COMPLETED STRUCTURES
VIBRATION
WATER WORKS

The column formula. (JPP 39-134) 594
Committee 322 report—Proposed recommended stresses for reinforced concrete. Boase 93
Committee 320—Safe loads for existing concrete bridges. Panhorst 185
Composite timber-concrete beams. Richart and Williams 253
Concrete for railway bridge decks, with rails directly attached. (JPP 39-124) 218
Concrete in water containing structures. (JPP 39-122) Fitzpatrick 215
Concrete tanks for boiler feed water. (JPP 39-107) 62
Concrete tanks for fuel oils. (JPP 39-126) 311
Conduit—Semi-circular arched. Benscoter 297
Conrow, A. D.—Disc. Influence of Sands, Cements and Manipulation Upon the Resistance of Concrete to Freezing and Thawing (June '43 Jl.). 124–1
CONSTRUCTION—DETAILS, METHODS AND COSTS
Bath tubs—Utah housing project. (JPP 39-132) Buehner 452
Bridge—Multiple arch—Grand Coulee Dam. Dexter 149
Bridge piers—welding reinforcing bars. Sailer 53
Dam—Shasta—Handling and placing. Rippon 1

Floors—Finish—Inspection. Boase..... 97
Mixing—Dry mix—Aggregate and cement. (JPP 39-127) Fitzpatrick..... 312
Placing underwater concrete. Halloran and Talbot..... 461
Roof—Long span. Mayer..... 389
Tunnel lining. (JPP 39-128)..... 449
Wall—Contraction joints—Spacing. (JPP 29-109) Kelly, Tuthill..... 65
—Limiting height of lift. (JPP 39-108) Fitzpatrick..... 455
—Thin section—Limiting height of lift. (JPP 39-108) Kelly, Young, Tuthill..... 63
Contraction joints—wall—spacing. (JPP 39-109) Kelly, Tuthill..... 65
Cook, Glenn C.—Effect of time of haul on strength and consistency of ready-mixed concrete..... 413
—Disc. (Suppl. '43)..... 428–1
Crepps, Ray B.—Wire-wound prestressed concrete pressure pipe..... 545

D

DAMS
Grand Coulee—Bridge over spillway. Dexter..... 149
Hiwassee—Effect of grinding in the large mixers on aggregate grading. Waugh.... 9
Shasta—Construction—Handling and placing. Rippon..... 1
Design of Box Culverts, The. Burky..... 33
—Disc. Rea, Burky (June '43 Jl.)... 52–1
Design and construction of the concrete multiple arch bridge over the spillway of Grand Coulee Dam, The. Dexter.... 149
—Disc. Hadley (June '43 Jl.)..... 164–1
Developments in methods of testing and specifying coarse aggregates. Tuthill.... 21
—Disc. Markwick, Williams, Tuthill (June '43 Jl.)..... 32–1
Dexter, E. R.—The design and construction of the concrete multiple arch bridge over the spillway of Grand Coulee Dam..... 149
—Disc. (June '43 Jl.)..... 164–1
Discontinuous mixtures—Gap gradings for aggregates. (JPP 39-125) Mercer... 309

E

Effect of grinding in the large mixers on aggregate grading at Hiwassee Dam. Waugh..... 9
Effect of time of haul on strength and consistency of ready-mixed concrete. Cook..... 413
—Disc. Hanna, Hornibrook, Cook (Suppl. '43)..... 428–1
Effect of vinsol resin on bond between concrete and steel. (JPP 39-114) Wuerpel..... 129
Electric prestressing of reinforcing steel. Billner, Carlson..... 585
—Disc. Abeles, Carlson, Billner (Suppl. '43)..... 592–1
ENGINEERING DESIGN
Beams—Composite. McCullough..... 429
—Rectangular—Plasticity ratio. Jensen.... 565
—Shear. (JPP 39-135)..... 595
Bridge—Multiple arch—Grand Coulee Dam. Dexter..... 149
—Safe loads. Panhorst..... 185
Buildings—Joints—Contraction and expansion. Judd..... 557
—National emergency specifications. (WPB Directive 9 compared with ACI 318-41).. 85
Column formula. (JPP 39-134)..... 594
Composite structures — Timber - concrete. Richart and Williams..... 253
Conduit—Semi-circular arched. Bnescoter. 297
Continuous structures—Factor of safety. Boase and Morgan..... 277
Culverts—Box. Burky..... 33
Joints—in concrete buildings. Judd..... 557
Pipe—Wire-wound prestressed. Crepps ... 545
Prestressed reinforcing units. Schorer..... 493
Reinforcing steel—Requirements. (JPP 39-111)..... 125
Retaining wall in Southwest Pacific. (JPP 39-121) Everhart..... 213
Shelters—Bomb-resistant. Wessman..... 241
Unreinforced concrete—Committee 322 report. Boase..... 93
Entrained air—Function in concrete. Kennedy..... 529
Everhart, C. C.—From a "Charming Old Port Town" in the Southwestern Pacific. (JPP 39-121)..... 213

F

Factor of safety in design—Continuous structures. Boase and Morgan..... 277
Fatigue tests of light weight aggregate concrete beams. Williams..... 441
Fitzpatrick, F. L.—Concrete in water containing structures. (JPP 39-122)..... 215
—How high a lift of concrete at one placing. (JPP 39-108)..... 455
—Variation in test strength of concrete and mortar specimens according to moisture content at time of test. (JPP 39-117) 133
—Would first mix aggregates and cement dry. (JPP 39-127)..... 312
Floor finish—Inspection of. Boase..... 97
From a "Charming Old Port Town" in the Southwestern Pacific. (JPP 39-121) Everhart..... 213
Frozen concrete. (JPP 39-113) Schnarr, Young, Shields, Watts, Withey, Hagy..... 127
Fuel oil storage tanks. (JPP 39-126)..... 311
Function of entrained air in concrete, The. Kennedy..... 529
—Disc. Spindel. (Suppl. '43)..... 544–1

G

Gap gradings for concrete aggregates. (JPP 39-125) Mercer..... 309

Gilkey, H. J.—Disc. The plasticity ratio of concrete and its effect on the ultimate strength of beams. (Suppl. '43) 584–1
Gilman, George T.—Disc. The properties and behavior underwater of plastic concrete. (Suppl. '43) 492–1
Grand Coulee Dam—multiple arch bridge over spillway. Dexter 149
Graywacke aggregate—Grinding characteristics—Hiwassee Dam. Waugh 9
Grinding aids—Effect on cement paste. (JPP 39-106) Scholer 61
—In large mixers—effect on aggregate grading—Hiwassee Dam. Waugh 9

H

Hadley, Homer M.—Disc. The Design and construction of the concrete multiple arch bridge over the spillway of Grand Coulee Dam. (June '43 Jl.) 164–1
See Errata p. VI.
—Disc. Safe loads for existing concrete bridges. (Suppl. '43) 192–1
Hagy, E. A. (with Schnarr, Young, Shields, Watts, Withey) Frozen concrete. (JPP 39-113) 127
Hajnal-Konyi, K.—Disc. The plasticity ratio of concrete and its effect on the ultimate strength of beams. (Suppl. '43) 584–1
Halloran, P. J. (with Talbot)—The properties and behavior underwater of plastic concrete 461
—Disc. (Suppl. '43) 492–1
Halmos, Eugene E.—Disc. The properties and behavior underwater of plastic concrete. (Suppl. '43) 492–1
Hanna, W. C.—Disc. Effect of time of haul on strength and consistency of ready-mixed concrete. (Suppl. '43) 428–1
Hansen, W. C.—Influence of sands, cements and manipulation upon the resistance of concrete to freezing and thawing 105
—Disc. (June '43 Jl.) 124–1
—Disc. Reagel. See (JPP 40-140) (Sept. '43 Jl.) 68
Harris, F. R.—Disc. The properties and behavior underwater of plastic concrete. (Suppl. '43) 492–1
Hiwassee Dam—Grinding in large mixers—Effect on aggregate grading. Waugh .. 9
Hornibrook, F. B.—Disc. Effect of time of haul on strength and consistency of ready-mixed concrete. (Suppl. '43) 428–1
How high a lift of concrete at one placing (JPP 39-108) Fitzpatrick 455
—Kelly, Young, Tuthill 63

I

Impact resistance of reinforced concrete slabs. Kluge 397
—Disc. Karr, Kluge (Suppl. '43) 412–1
Influence of sands, cements and manipulation upon the resistance of concrete to freezing and thawing. Hansen 105
—Disc. Reagel, See (JPP 40-140) (Sept. '43 Jl.) 68
—Disc. Conrow, Spindle, Hansen. (June '43 Jl.) 124–1
Inspection of concrete floor finish construction. Boase 97
—Disc. Coburn. (Jund '43 Jl.) 104–1
Insulating value of cinder-concrete masonry walls. (JPP 39-115) 130
Jensen, V. P.—The plasticity ratio of concrete and its effect on the ultimate strength of beams 565
—Disc. (Suppl. '43) 584–1

J

Joints—contraction and expansion. Judd 557
Judd, Samuel—Bureau of Reclamation practice in design of joints for concrete buildings. 557

K

Kaiser, W. G. (also Pearson)—The Problem of shrinkage in masonry units. (JPP 39-110) 66
Karr, R. D.—Disc. Impact resistance of reinforced concrete slabs. (Suppl. '43) 412–1
Kelly, J. W. (with Young and Tuthill)—How high a lift of concrete at one placing. (JPP 39-108) 63
—What contraction joint in a reinforced concrete wall. (JPP 39-109) 65
Kennedy, Henry L.—The function of entrained air in concrete 529
—Disc. (Suppl. '43) 544–1
Kluge, Ralph W.—Impact resistance of reinforced concrete slabs 397
—Disc. (Suppl. '43) 412–1

L

LAWS AND PROPERTIES

Bleeding—Causes and control. (JPP 38-93) Sprague 134
Bond—Effect of vinsol resin. (JPP 39-114) Wuerpel 129
Fatigue—Light weight aggregate beams. Williams 441
Microscopic structure—Hydrated portland cement. Brownmiller 193
Permeability—Water containing structures. (JPP 39-122) Fitzpatrick 215
Physical characteristics—Underwater concrete. Halloran and Talbot 461
Plasticity ratio—Effect on ultimate strength. 565

Resistance to freezing and thawing—Influence of sand, cement, manipulation. Hansen 105
Resistance to freezing and thawing. (JPP 39-130) Withey 450
Resistance to impact. Kluge 397
Shrinkage—Concrete exposed to weather. (JPP 39-116) Pearson, Adams 131
Shrinkage—Masonry units. (JPP 39-110) Kaiser, Pearson 66
Slump—Limit for vibrated concrete. (JPP 39-131) Meissner and Withey 451
Stiffening — Premature. (JPP 39-129) Blanks 450
Strength—Compressive—Effect of powdered aluminum. Menzel 165
Strength and consistency—Effect of time of haul. Cook 413
—Relative Wet and dry specimens. (JPP 39-117) Fitzpatrick 133
Weight—Mortar pots—Variations due to humidity. (JPP 39-123) Adams 217
Lift—height, thin wall. (JPP 39-108) Kelly, Young, Tuthill 63
—Limiting height of one placing. (JPP 39-108) Fitzpatrick 455
Light weight aggregate to save steel (JPP 39-119) Richart, Thomson 137
Long span concrete roof construction. Mayer 389
Long time tests of concrete. Withey & Wendt 221
Looking backward and forward. Withey .. 385

M

Manipulation—excessive—influence on resistance to freezing and thawing. Hansen 105
Marwick, A. H. D.—Disc. Developments in methods of testing and specifying coarse aggregates (June '43 Jl.) 32–1
MASONRY UNITS
Block—shrinkage. (JPP 39-110) Kaiser, Pearson 66
Cinder block—insulating value. (JPP 39-115) 130
MATERIALS AND TESTS
Admixtures—powdered aluminum—Effect of. Menzel 165
—Vinsol resin. (JPP 39-114) Wuerpel 129
Aggregate—Effect of grinding in mixer on grading. Waugh 9
—Gap grading of. (JPP 39-125) Mercer .. 309
—Light weight—beam tests. Williams 441
—Mix control. (JPP 39-120) Collins. 139, 214
—Saves steel. (JPP 39-119) Richart 137
—Thomson 138
—Coarse—methods of specifying. Tuthill. 21
—Soundness. (JPP 39-130) Withey 450
—Stockpiling. (JPP 39-137) Walker, Powers 597, 598
—Types—long time tests. Withey & Wendt. 221
Cement—grinding aids—Effect of. (JPP 39-106) Scholer 61
—Premature stiffening. (JPP 39-129) Blanks 450
—Mixed brands. (JPP 39-118) 135
—Sands—Influence on resistance to freezing and thawing. Hansen 105
—Types—long time tests. Withey & Wendt 221
Paints and waterproofing on concrete ships. (JPP 39-133) 593
Steel—Proper amount of reinforcing. (JPP 39-111) 125
Waterproofing and paints on concrete ships. (JPP 39-133) 593
Mayer, C. H.—Long span concrete roof construction 389
McCullough, Conde B.—Oregon tests on composite (timber-concrete) beams 429
Meissner, H. S. (with Withey)—Slump limit for vibrated concrete. (JPP 39-131) 451
Menzel, Carl A.—Some factors influencing the strength of concrete containing admixtures of powdered aluminum 165
Mercer, L. Boyd—Gap gradings for concrete aggregates. (JPP 39-125) 309
Method of mix control for light weight aggregate, A. (JPP 39-120) Collins ... 139, 214
—of handling and placing concrete at Shasta dam. Rippon 1
Microscopic structure of hydrated portland cement, The. Brownmiller 193
—Disc. Rexford, Brownmiller. (June '43 Jl.) 212–1
Mix control—light weight aggregate. (JPP 39-120) Collins 139, 214
Mixed brands of cement on the same job. (JPP 39-118) 135
MIXTURES
Control—light weight aggregates. (JPP 39-120) Collins 139, 214
Moisture content—Effect of variation. (JPP 39-127) Fitzpatrick 312
Model studies—dock—underwater construction. Halloran and Talbot 461
Morgan, C. E. (with Boase)—Balanced design for reinforced concrete 277
Morris, Clyde T.—Disc. Safe loads for existing concrete bridges. (Suppl. '43) 192–1
Mortar pots—variations in weight due to humidity. (JPP 39-122) 215

N

"National emergency specifications for the design of reinforced concrete buildings' to conserve steel—compared with ACI 318-41" 85

O

Oregon tests on composite (timber-concrete) beams. McCullough 429

P

Paint and waterproofing applied to concrete ships. (JPP 39-133) 593
Panhorst, F. W.—Safe loads for existing concrete bridges 185

—Disc. (Suppl. '43) 192–1
Parsons, D. E.—Disc. The plasticity ratio of concrete and its effect on the ultimate strength of beams. (Suppl. '43) 584–1
—Disc. Prestressed concrete, design principles and reinforcing units. (Suppl. '43) 528–1
Pearson, J. C. (also Kaiser)—The problem of shrinkage in masonry units. (JPP 39-110) 66
—(with Adams)—Shrinkage of concrete exposed to the weather. (JPP 39-116) 131
PIPE
Manufacture—prestressed reinforcing steel. (JPP 39-112) Richart 126
Wire wound prestressed. Crepps 545
Plasticity ratio of concrete and its effect on the ultimate strength of beams. The. Jensen 565
—Disc. Parsons, Whitney, Gilkey, Hajnal-Konyi, Abeles, Jensen. (Suppl. '43) 584–1
Powers, T. C.—Advantages of stockpiling aggregates. (JPP 39-137) 598
Premature stiffening—causes of rejection of cement. (JPP 39-129) Blanks 450
President's address. Withey 385
Prestressed concrete, design principles and reinforcing units. Schorer 493
—Disc. Parsons, Abeles, Schorer. (Suppl. '43) 528–1
Prestressed steel in reinforced concrete. (JPP 39-112) Richart 126
Prestressing of reinforcing steel. Billner, Carlson 585
Properties and behavior underwater of plastic concrete, The. Halloran and Talbot 461
—Disc. Halmos, Harris, Tauber, Gilman, Halloran, Talbot. (Suppl. '43). 492–1
Proposed recommended stresses for unreinforced concrete. Report Com. 322. Boase 93

R

RAILWAY USES
Bridge—deck—directly attached rails. (JPP 39-124) 218
Rea, Dale H.—Disc. The design of box culverts. (June '43 Jl.) 52–1
Rejection of cement which stiffens prematurely. (39-129) Blanks 450
Repair of leaky tunnel lining. (JPP 39-128) 449
RESERVOIRS AND TANKS
Boiler feed water containers. (JPP 39-107) 62
Fuel oil storage. (JPP 39-126) 311
Plain cylinder—prestressed hoops. (JPP 39-112) Richart 126
Rexford, E. P.—Disc. The Microscopic structure of hydrated portland cement. (June '43 Jl.) 212–1
Richart, F. E.—Light weight aggregate to save steel. (JPP 39-119) 137

Vibrated concrete—slump limit. (JPP 39-131) Meissner and Withey..... 451
Vibration of concrete in test cylinder molds. (JPP 39-136)..... 596
Vinsol resin—effect on concrete—steel bond. (JPP 39-114) Wuerpel..... 129
—effect on resistance to freezing and thawing. Hansen..... 105
Volume changes—prestressed reinforcing units. Schorer..... 493

W

Walker, Stanton—Advantages of stockpiling aggregates. (JPP 39-137)..... 597
Waterproofing and paint on concrete ships. (JPP 39-133)..... 593
Watts, H. C. (with Schnarr, Young, Shields, Withey, Hagy) Frozen concrete. (JPP 39-113)..... 127
Waugh, W. R.—Effect of grinding in the large mixers on aggregate grading at Hiwassee Dam..... 9
Welding of 2-inch square reinforcing bars for piers of Pit River bridge. Sailer..... 53
Wendt, K. F. (with Withey)—Some long time tests of concrete..... 221
Wessman, Harold E.—Bomb-resistant air raid shelters..... 241
What contraction joint in a reinforced concrete wall. (JPP 39-109) Kelly, Tuthill..... 65
Whitney, Charles S.—Disc. The plasticity ratio of concrete and its effect on the ultimate strength of beams. (Suppl. '43)..... 584–1
Why grinding aids. (JPP 39-106) Scholer. 61
Williams, C. B., Jr. (with Richart)—Tests of composite timber-concrete beams..... 253
Williams, Gordon L.—Disc. Developments in methods of testing and specifying coarse aggregates. (June '43 Jl.)..... 32–1
Williams, Harry A.—Fatigue tests of light weight aggregate concrete beams..... 441
Wire-wound prestressed concrete pressure pipe. Crepps..... 545
Withey, M. O.—President's address..... 385
—(with Meissner)—Slump limit for vibrated concrete. (JPP 39-131)..... 451
(with Wendt)—Some long time tests of concrete..... 221
—Soundness tests of aggregates. (JPP 39-130) 450
Withey, N. H. (with Schnarr, Young, Shields, Watts, Hagy) Frozen concrete. (JPP 39-113)..... 127
Would first mix aggregates and cement dry. (JPP 39-127) Fitzpatrick..... 312
Wuerpel, Charles E.—Effect of vinsol resin on bond between concrete and steel. (JPP 39-114)..... 129

Y

Young, R. B. (with Schnarr, Shields, Watts, Withey, Hagy) Frozen concrete. (JPP 39-113)..... 127
—(with Kelly and Tuthill—How high a lift of concrete at one placing. (JPP 39-108)... 63

INDEX

Current Reviews

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, Vol. 14 Sept. 1942 to June 1943

For information as to indexing methods see Proceedings *Index, p. 609*

A

Absorption—Brick—Effect on mortar properties. (Review) Anderegg. *ASTM*..... 73
"Adherit" concrete road. (Review) Krah. *Verkehrstechnik*..... 77
Aggregate production for Friant Dam. (Review) Douglas. *Civil Engineering*..... 78
Airbase paving—Rapid construction. (Review) *Engineering News-Record*..... 321
Air raid precautions. (Review) *Indian Concrete Jl.*..... 142
—shelter for fifty people. (Review) *Engineering News-Record*..... 69
Aluminum, powdered—Admixture to concrete. (Review) Carlson. *ASTM*..... 74
Amercoat—Treatment for oil cargo tanks—Concrete ships. (Review) *Engineering News-Record*..... 607
Anchors—Steel—Strength in concrete. (Review) Graham. *Engineering News-Record*. 601
Apparatus for particle size analysis. (Review) Stairmand and Carey. *Engineering*..... 606
Army base construction—Service roads. (Review) *Engineering News-Record*..... 71
A.S.T.M. Standards on cement. (Review) ASTM..... 318

B

ARCHITECTURAL DESIGN

Beam-method of design of eccentrically-loaded columns. Albert. *Engineering News-Record* 601
Bearing pressure—Rectangular footings—Stability. (Review) *Surveyor and Municipal and County Engineer*..... 82
Big airbase paved in ninety days. (Review) *Engineering News-Record*..... 321
—concrete plant speeds power dam. (Review) *Engineering News Record*..... 603
Bond strength of reinforcing bars embedded horizontally in concrete. Robin, Olsen, Kinnane. *Journal of Inst. of Engs. Australia* 321–458
Box girders—Highway overpass. (Review) *Engineering News-Record*..... 317
Building concrete ships in prefabricated forms. *Engineering News-Record*..... 607
—practice. (Review) Molloy. Chemical Publishing Co..... 144

BREAKWATERS—DOCKS AND SEA WALLS

Dry docks—Tremie placed concrete. (Review) Harris. *Civil Engineering*..... 75
—Underwater construction. (Review) *Engineering News-Record*..... 322

BRIDGES

Boxgirders—Highway overpass. (Review) *Engineering News-Record*..... 317

BUILDINGS

Industrial—Precast construction. (Review) *Engineering News-Record*..... 603
Office—100-acre—Construction. (Review) *Engineering News-Record*..... 72
War structures. (Review) *Engineering News-Record*..... 320
Wartime plants—Without footings. (Review) *Engineering News-Record*..... 141

C

Camouflage paints and their application to road and building surfaces. Gabriel. *Chemistry and Industry*..... 459
Chats—Paving material. (Review) *Engineering News-Record*..... 70
Chert—Deleterious constituent in aggregates. (Review) Sweet, Woods, *Bulletin*, Research Series 86, Eng. Exp. Sta., Purdue Univ..... 457
Civilian defense—Shelters. (Review) Binger, Railey. W. W. Norton & Co..... 74
Cold weather paving of airport runways. (Review) *Engineering News-Record*..... 603
Columns—Eccentrically loaded. (Review) Albert. *Engineering News-Record*..... 601
Compaction methods. (Review) Plum. Danish Engineering Society..... 143
Concrete frames designed to save steel. (Review) Polivka. *Engineering News-Record*.. 70
—jackets make up for unequal pile lengths. (Review) *Engineering News-Record*..... 318
—mixing plant for Friant Dam. (Review) Douglas. *Civil Engineering*..... 75
—paving in near zero weather. (Review) *Engineering News-Record*..... 603
—production and control for Saugatuck Dam. (Review) Miller. *Civil Engineering*..... 78
—pumped downhill for a dam. (Review) Glines. *Engineering News-Record*..... 69
—reservoirs of the vertical-beam type. (Review) Stanley. *Proc. Am. Soc. C. E.*..... 457
—work. (Review) Molloy. Chemical Publishing Co..... 144
Concreting a 100-acre office building. (Review) *Engineering News Record*..... 72
Conservation of construction equipment and facilities. (Review) Associated General Contractors of America, Inc..... 605
Construction plant and methods—Friant Dam. (Review) Walter. *Civil Engineering*..... 79

Curing concrete pavements under wartime restrictions on critical materials. (Review) Highway Research Board ... 141
—of masonry mortars. (Review) Staley. *ASTM* ... 72
Curved box girders for highway overpass. (Review) *Engineering News-Record* ... 317
CONSTRUCTION—DETAILS, METHODS, AND COSTS
Aggregate delivery—Long belt conveyor. (Review) Wittemore. *Engineering News-Record* ... 143
Airbase pavement—Rapid construction. (Review) *Engineering News-Record* ... 321
Army base—Service roads speed erection. (Review) *Engineering News-Record* ... 71
Building—100-acre office. (Review) *Engineering News-Record* ... 72
Buildings—Precast construction. (Review) *Engineering News Record* ... 603
Compaction—Vibration. (Review) Plum. Danish Engineering Society ... 143
Dam—Big construction plant. (Review) *Engineering News-Record* ... 603
—Friant—Plant and methods. (Review) Walter. *Civil Engineering* ... 79
—Gravity section—Friant dam. (Review) Williams. *Civil Engineering* ... 72
—Gravity section—mixing plant. (Review) Douglas. *Civil Engineering* ... 75
—Saugatuck—Control methods. (Review) Miller. *Civil Engineering* ... 78
Dry docks—tremie placing. (Review) Harris. *Civil Engineering* ... 75
—underwater construction. (Review) *Engineering News-Record* ... 322
Equipment and facilities. (Review) Associated General Contractors of America, Inc. ... 605
Floor system—Low cost housing. (Review) *Engineering News-Record* ... 70
Foundations—Frozen ground. (Reviews) *Engineering News-Record* ... 69
Hangar—wide-span. (Review) Tedesko. *Civil Engineering* ... 76
Housing—Formwork for. (Review) *Engineering News-Record* ... 142
Mixing—Truck mixers. (Review) Hunt. *Engineering News-Record* ... 142
Pavement—airport runways—Cold weather operations. (Review) *Engineering News-Record* ... 603
—Mine tailings. (Review) *Engineering News-Record* ... 70
—Road surfacing—Vibration. (Review) Schade. *Road Abstracts* ... 145
Pier sections—Stovepipe forms. (Review) *Engineering News-Record* ... 142
Placing — Pumping downhill. (Review) Glines. *Engineering News-Record* ... 69
Runways—Rapid progress. (Review) *Engineering News-Record* ... 69
Seaplane ramps—Precast units. (Review) *Engineering News-Record* ... 601
Ships—Prefabricated forms (Review) *Engineering News-Record* ... 607
Typical members. (Review) Molloy. Chemical Publishing Co. ... 144

D

Design of concrete pavements requiring a minimum of steel. (Review) Highway Research Board ... 141
Determining proportions of concrete for desired compressive strengths. Goldbeck, Gray. *Engineering News-Record* ... 317
Development of light weight concretes from North Carolina vermiculites, The. (Review) Schales, Greaves-Walker, Todd, Cox. Eng. Exp. Sta., North Carolina State College of Agri. and Eng. ... 606
Displacements and stresses in the general two-dimensional framework. (Review) Nubar. Columbia University ... 141
Dowel—Porcelain—For road slab. (Review) Krah. *Strassenbau* ... 319
DAMS
Friant—Aggregate production. (Review) Douglas. *Civil Engineering* ... 78
—Construction—Mixing plant. (Review) Douglas. *Civil Engineering* ... 75
—Construction plant. (Review) Walter. *Civil Engineering* ... 79
—General features. (Review) Williams. *Civil Engineering* ... 72
Gravity—Construction with big plant. (Review) *Engineering News-Record* ... 603

E

Effect of brick absorption characteristics upon mortar properties. (Review) Anderegg. *ASTM* ... 73
Experience with the "Adherit" concrete rond. (Review) Kah. *Verkehrstechnik* ... 77
Evolution of tremie-placed concrete dry docks. (Review) Harris. *Civil Engineering* ... 75
ENGINEERING DESIGN
Beams and girders—Rationalizing safety factor. (Review) Boase. *Engineering News-Record* ... 70
—Prestressing reinforcing — Bars versus wires. (Review) Evans. *Jl. of the Inst. of Civil Engineers* ... 81
Columns—Eccentrically loaded. (Review) Albert. *Engineering News-Record* ... 601
Floor system—Economy of steel. (Review) Boase. *Engineering News-Record* ... 71
—Housing project. (Review) *Engineering News-Record* ... 70
Footings—Wall and column—Without steel. (Review) Bergman. *Engineering News-Record* ... 69
Framework—Two-dimensional. (Review) Nubar. Columbia University ... 141
Hangars—wide-span. (Review) Tedesko. *Civil Engineering* ... 76

Pavement—Minimum steel requirements. (Review) Highway Research Board..... 141
Reservoir—Vertical beam sidewall. (Review) Stanley. *Proc. Amer. Soc. C. E.*.. 457
Retaining walls—Earth pressure. (Review) Minikin. *Engineering*..... 322
Roof—Multiple-arch. (Review) *Engineering News-Record*..... 602
Shelter—Air-raid. (Review) *Engineering News-Record*..... 69
—(Review) *Indian Concrete Journal*..... 142
Slabs and columns—Economy of steel. (Review) Boase. *Engineering News-Record*.. 71
—Saving steel. (Review) Polivka. *Engineering News-Record*..... 70
Steel—conserving. (Review) Cross. *Civil Engineering*..... 75
Walls—Vertical beam—Hinged connection. (Review) Stanley. *Proc. Amer. Soc. C. E.* 457

F

Fast foundations in frozen ground. (Review) *Engineering News-Record*..... 69
Finishes for portland cement structures. (Review) Gardner. *Building Science Abstracts* 317
Floor systems—Economy of steel. (Review) Boase. *Engineering News-Record*..... 71
Forms—Cylindrical—Stovepipe. (Review) *Engineering News-Record*..... 142
Formwork — Planned — Speeds construction. (Review) *Engineering News-Record*..... 142
Footings—Determination of ultimate bearing pressure. (Review) *Surveyor and Municipal and County Engineer*..... 82
Foundations—Frozen ground. (Review) *Engineering News-Record*..... 69
Frames—Building—Design saves steel. (Review) Polivka. *Engineering News-Record*.. 70
Friant dam—Construction plant and methods. (Review) Walter. *Civil Engineering*..... 79
Frozen ground—Thawing for foundations. (Review) *Engineering News-Record*..... 69
Further phase-equilibrium studies involving the potash compounds of portland cement. Taylor. *Journal Research*..... 319

FAILURES

Footings—Stability. (Review) *Surveyor and Municipal and County Engineer*..... 82

G

General features of Friant Dam. (Review) Williams. *Civil Engineering*..... 72
Grading of gravel aggregates and quality of concrete. (Review) Walsh. *Inst. of Civil Engineers of Ireland*..... 77
Gravel aggregates—Effect of grading on quality of concrete. (Review) Walsh. *Inst. of Civil Engineers of Ireland*..... 77
Grouting check foundation vibration. (Review) *Engineering News-Record*..... 318
Handbook for Concrete and Cement. (Review) War Department..... 143

H

Hangars—Wide-span—U. S. Navy. (Review) Tedesko. *Civil Engineering*..... 76
High early strength cement—Ten year tests. (Review) Schuman. *Journal Research*.... 320
—Tests. (Review) Shuman. *Journal of Research*..... 604
Highway overpass—Box girders. (Review) *Engineering News-Record*..... 317

I

Illumination—Light-reflecting concrete. (Review) Berns. *Civil Engineering*..... 320
Industrial buildings of precast concrete. (Review) *Engineering News-Record*..... 603
Inertol—Treatment ballast tanks—Concrete ships. (Review) *Engineering News-Record* 607

L

Light-reflecting concrete for factory floors. Berns. *Civil Engineering*..... 320
Long-time volume changes of portland cement bars. (Review) White, Kemp. *ASTM*... 73

LAWS AND PROPERTIES

Absorption—Effect on mortar properties. (Review) Anderegg. *ASTM*..... 73
Light reflection—white cement. (Review) Berns. *Civil Engineering*..... 320
Modulus of elasticity—Exposed to vibrations. (Review) *Beton u. Eisen*..... 143
Plasticity and workability of mortars. (Review) Roller. *ASTM*..... 71
Thermal characteristics—High temperature oil well cements. (Review) Byrd, Jessen. *Industrial and Engineering Chemistry*..... 319
Volume changes—Long-time. (Review) White, Kemp. *ASTM*..... 73

M

Masonry mortars—Curing. (Review) Staley. *ASTM*..... 72
Mechanical finishing of concrete in road construction with special reference to vibration: A new way of increasing output. Schade. *Road Abstracts*..... 145
Mine tailings—Pavement construction. (Review) *Engineering News-Record*..... 70
Modern concrete compaction methods. (Review) Plum. Danish Engineering Society. 143
Modulus of elasticity of concrete exposed to vibration. (Review) Ehlers. *Beton u. Eisen*..... 143
More production from truck mixers. (Review) Hunt. *Engineering News-Record*..... 142
Mortar-coated piles resist hard treatment. (Review) *Engineering News Record*..... 602
—wood piles. (Review) *Engineering News-Record*..... 319
Multiple-arch concrete roof saves steel. (Review) *Engineering News-Record*..... 602

MATERIALS AND TESTS

Admixtures—Effect on quality of concrete. (Review) Von Meng. *Zement*..... 145
—Powdered aluminum. (Review) Carlson. *ASTM*..... 74
Aggregate—Chert—Study of. (Review) Sweet, Woods. *Bulletin*, Research Series 86, Eng. Exp. Sta., Purdue Univ. 457
—Lightweight. (Review) Schales, Greaves-Walker, Todd, Cox. Eng. Exp. Sta., North Carolina State College of Agr. and Eng..... 606
—Properties of. (Review) *ASTM*..... 605
—Gravel — Grading — Effect on quality. (Review) Walsh. *Inst. of Civil Engineers of Ireland*..... 77
—Production for Friant dam. (Review) Douglas. *Civil Engineering*..... 78
—Shape definition. (Review) Schiel. *Betonstrasse*..... 604
Bond strength—Reinforcing bars. (Review) Robin, Olsen, Kinnane. *Journal of the Institution of Engineers Australia*.....321, 458
Cement—High early strength. (Review) Schuman. *Journal Research*..... 320
—(Review) Shuman. B. of S. *Journal of Research*..... 604
—A.S.T.M. standards. (Review) *ASTM*. 318
Concrete—Properties of. (Review) *ASTM* 605
Engineering materials—Inspection. (Review) Davis, Troxell and Wiskocil. McGraw-Hill Book Co..... 80
Paints—Cement finishes. (Review) Gardner. *Building Science Abstracts*..... 317
Portland cement—Volume changes—long-time. (Review) White, Kemp. *ASTM*. 73

MIXTURES

Design—Proportions for desired compressive strength. (Review) Goldbeck, Gray. *Engineering News-Record*..... 317

N

Navy builds prestressed concrete tanks. (Review. Garrabrant. *Engineering News-Record* 602
New type pavement from mine tailings. (Review) *Engineering News-Record*..... 70
New Zealand emergency standard code for raid shelter. (Review) N. Z. Standards Inst... 144
Nondestructive tests and inspection of engineering materials. (Review) Davis, Troxell, Wiskocil. McGraw Hill Book Co..... 80
A novel type of dowel for concrete roads. (Review) Krah. *Strassenbau*..... 319

O

Oil well cements—High temperature. (Review) Byrd, Jessen. *Industrial and Engineering Chemistry*..... 319
Operating a 9-mile belt conveyor. (Review) Wittemore. *Engineering News-Record*..... 143

P

Paints—Camouflage—Application to roads and bldgs. (Review) Gabriel. *Chemistry and Industry*..... 459
—for cement structures. (Review) Gardner. *Building Society Abstracts*..... 317
Particle size analysis—Apparatus for. (Review) Stairmand, Carey. *Engineering*.... 606
Pavement slab design—Corner region stresses. (Review) Spangler. Bulletin 157, Univ. of Iowa..... 323
Paving Runways at half a mile a day clip. (Review) *Engineering News-Record*..... 69
Phase-equilibrium—Studies of potash compound. (Review) Taylor. *Journal Research* 319
Photographic sedimentation apparatus. (Review) Stairman, Carey. *Engineering*..... 606
Piles—Concrete jackets. (Review) *Engineering News-Record*..... 318
—mortar coated wood. (Review) *Engineering News-Record*..... 319
Planned formwork speeds construction. (Review) *Engineering News-Record*..... 142
Plant lay-out—Conservation of equipment and facilities. (Review) Associated General Contractors of America, Inc..... 605
Plasticity of mortars—Theory and measurement. (Review) Roller. *ASTM*..... 71
Porcelain dowel—For road slab. (Review) Krah. *Strassenbau*..... 319
Possibilities of improvement of the quality of concrete by an admixture. (Review) Von Meng. *Zement*..... 145
Potash compounds of portland cement—Phase equilibrium. (Review) Taylor. *Journal Research*..... 319
Powdered aluminum as an admixture to concrete. (Review) Carlson. *ASTM*..... 74
P. R. C. pre-stressing reinforced concrete, Part I, General Data. Book, (Review) Kurt Billig..... 318
Prefabricated forms—for concrete ships. (Review) *Engineering News-Record*..... 607
Prestressed beams—Relative merits of wire and bar reinforcing. (Review) Evans. *Jl. of Inst. of Civil Engineers*..... 81
—underground fuel tanks. (Review) Garrabrant. *Engineering News-Record*..... 602
—reinforced concrete—theory of. Book, (Review). Kurt Billig..... 318
Proceedings Highway Research Board. (Review) Highway Research Board..... 71
Proportions—Determination for desired compressive strength. (Review) Goldbeck, Gray. *Engineering News-Record*..... 317
Pump-crete—Effect of admixtures on. (Review) Von Meng. *Zement*..... 145
Pumping concrete downhill—Dam construction. (Review) Glines. *Engineering News-Record*..... 69

PAVEMENT

Airbase—Rapid construction. (Review) *Engineering News-Record*..... 321

Airport runway—Cold weather operations. (Review) *Engineering News-Record*..... 603
Design of steel reinforcing. (Review) Highway Research Board..... 141
Highway—Research. (Review) Highway Research Board..... 71
—war construction. (Review) *Engineering News-Record*..... 317
Resurfacing—Concrete on macadam. (Review) Krah. *Verkehrstechnik*..... 77
Road—Camouflage paint treatment. (Review) Gabriel. *Chemistry and Industry*.. 459
—surfacing—Vibration in construction. (Review) Schade. *Road Abstracts*..... 145
Slab design—corner region of slab. (Review) Spangler. Bulletin 156, Iowa University.. 323
Slabs—curing under wartime restrictions. (Review) Highway Research Board..... 141

PRECAST UNITS

Beams and slabs—seaplane ramps. (Review) *Engineering News-Record*..... 601
Building members. (Review) *Engineering News-Record*..... 603
Floor joists—Housing project. (Review) *Engineering News-Record*..... 70
Pile lengths—Jackets. (Review) *Engineering News-Record*..... 318
Precast units cut cost and time on seaplane ramps. (Review) *Engineering News-Record* 601

R

Rectangular footings. (Review) *Surveyor and Municipal and County Engineer*..... 82
Reinforcement—Relative merits of wire and bars in pre-stressing. (Review) Evans. *Jl of Inst. of Civil Engineers*..... 81
Reinforcing bars—Bond strength. (Review) Robin, Olsen, Kinnane. *The Journal of Inst. of Eng. Australia*.....321, 458
Relative merits of wire and bar reinforcement in pre-stressed concrete beams. (Review) Evans. *Jl of Inst. of Civil Engineers*..... 81
Reservoirs—Vertical beam type. (Review) Stanley. *Proc. Amer. Soc. C. E.*..... 457
Retaining walls. (Review) Minikin. *Engineering*..... 322
Roads under war restriction. (Review) *Engineering News-Record*..... 317
Runways—Rapid paving. (Review) *Engineering News-Record*..... 321
—Rapid paving progress. (Review) *Engineering News-Record*..... 69

RESEARCH

Portland cement—Potash compounds—Phase equilibrium. (Review) Taylor. *Journal Research*..... 319

RESERVOIRS AND TANKS

Prestressed underground fuel tanks. (Review) Garrabrant. *Engineering News-Record*..... 602
Static water tanks. (Review) Griffith. *The Structural Engineer*..... 601
Vertical beam type reservoir. (Review) Stanley. *Proc. Amer. Soc. C. E.*..... 457

S

Safety factors—Rationalizing—Saving reinforcing steel. (Review) Boase. *Engineering News-Record*..... 70
Saugatuck Dam—Production and control. (Review) Miller. *Civil Engineering*..... 78
Saving reinforcing steel by rationalizing safety factors. (Review) Boase. *Engineering News-Record*..... 70
—steel by substituting concrete. (Review) Cross. *Civil Engineering*..... 75
Seaplane ramps—Precast units. (Review) *Engineering News-Record*..... 601
Shape of concrete aggregate and its testing, The. (Review) Schiel. *Betonstrasse*..... 604
Shelters—Air-raid—Design. (Review) *Engineering News-Record*..... 69
—Standard code. (Review) N. Z. Standards Inst..... 144
—Civilian defense. (Review) Binger, Railey. W. W. Norton & Co..... 74
Ships—Construction—Prefabricated forms. (Review) *Engineering News-Record*..... 607
Shotcrete—Protection for wood piles. (Review) *Engineering News-Record*..... 602
Significance of tests. (Review) *ASTM*..... 605
Special section on war buildings of 1942. (Review) *Engineering News-Record*..... 320
Static Water tanks. (Review) Griffith. *The Structural Engineer*..... 601
Steel—Reinforcing—Saving. (Review) Boase. *Engineering News-Record*..... 70
Stovepipe forms speed winter concrete. (Review) *Engineering News-Record*..... 142
Strength of steel anchors in concrete. (Review) Graham. *Engineering News-Record*..... 601
Stresses in the corner region of concrete pavements. (Review) Spangler. Bulletin 157 University of Iowa..... 323
Studies of steel economy in concrete slabs and columns. (Review) Boase. *Engineering News Record*..... 71
Study of chert as a deleterious constituent in aggregates, A. (Review) Sweet and Woods. *Bulletin*, Research Series 86, Eng. Exp. Sta., Purdue Univ..... 457
Substantial service roads speed army base construction. (Review) *Engineering News-Record*..... 71

SPECIFICATIONS

Cement—A.S.T.M. standards. (Review) *ASTM*..... 318
Federal—Handbook. (Review) War Department..... 143
Floor system—Codes compared. (Review) Boase. *Engineering News-Record*..... 71

Shelters—Emergency code. (Review) N. Z. Standards Inst. 144

SURFACES

Finish — Camouflage paints. (Review) Gabriel. *Chemistry and Industry* 459
Paving resurface—"Adherit." (Review) Kiah. *Verkehrstechnik* 77

T

Ten year tests of high early strength cement concretes. Schuman. (Review) *Journal Research* 320
(Review) Shuman. *Journal of Research* ... 604
Testing and inspection of engineering materials. (Review) Davis, Troxell and Wiskocil. McGraw Hill Book Co. 80
Theory and measurement of plasticity and workability of mortars. (Review) Roller *ASTM* 71
Thermal characteristics of high-temperature oil well cements. (Review) Byrd, Jessen. *Industrial and Engineering Chemistry* 319
Tremie-placed concrete—Evolution of. (Review) Harris. *Civil Engineering* 75
Truck Mixers—Production from. (Review) Hunt. *Engineering News-Record* 142
Twin drydocks constructed under water. (Review) *Engineering News-Record* 322
Two-dimensional framework—Analysis. (Review) Nubar. Columbia University 141

TESTS AND FIELD CONTROL

Mixing records—Dam construction. (Review) Miller. *Civil Engineering* 78

TESTS OF MEMBERS AND COMPLETED STRUCTURES

Beams—Bond Resistance of bars. (Review) Robin, Olsen, Kinnane. *The Journal of Inst. of Engs. Australia* 321, 458
—Exposed to vibrations. (Review) Ehlers. *Beton u. Eisen* 143
Piles—mortar coated. (Review) *Engineering News-Record* 602

U

Underwater drydock construction. (Review) *Engineering News-Record* 322

V

Vermiculite—Light weight aggregate. (Review) Schales, Greaves-Walker, Todd, Cox. Eng. Exp. Sta., North Carolina State College of Agr. and Eng. 006
Vibration—Compaction methods. (Review) Plum. Danish Engineering Society 143
—of foundation—checked by grouting. (Review) *Engineering News-Record* 318

W

Wall and Column Footings without steel. (Review) Bergman. *Engineering News-Record.* 69
War plant buildings without footings. (Review) *Engineering News-Record* 141
Wartime restrictions on critical materials. (Review) Highway Research Board 141
What the citizen should know about civilian defense. (Review) Binger, Railey. W .W. Norton & Co. 74
Wide-span hangars for the U. S. Navy. (Review) Tedesko. *Civil Engineering* 76
Wire saves steel in concrete joists. (Review) *Enginering News-Record* 70
Wood piles with mortar coating save time and critical materials. *Engineering News-Record* 319
